DETAILED ACTION

1. Claims 8-14 and 22 pending in the instant application.

Response to Amendment

2. Applicant's amendments to the claims have been considered. The amendments are successful in overcoming all grounds of objection/rejection set forth in the previous office action. Therefore, these grounds of objection/rejection are hereby withdrawn.

3. New ground of rejection is set forth below, section 4. This ground of rejection was necessitated by Applicant's amendment to eliminate previously set forth unpatentable alternative.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 8-10, 14 and 22 rejected under 35 U.S.C. 102(e) as being anticipated by the following three references: a) Ali et al. (WO 04/075840; step 3 on p. 37, scheme 3 on p. 32, disclosure on p. 35-36); b) Ali et al. (WO 04/026248, step c on p. 39); c) Ali et al. (WO 2003/086294, step 3 on p. 43).

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

The three references teach the compound shown below in a composition comprising 40 mL of acetic acid in 1 L of water (ie. aqueous solution).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
